

Introducing Electronics & Amateur Radio Across the Generations
Upcycling Electronic Components Into Fun Kits

Funded by RSGB Legacy Committee

How CQ Scotland.com Have Made a Difference

Event's Delivered : Tools, Kits, Parts Shared : What's Coming?
Base for Builder's Set Up in Hamilton - Join In!

CQ SCOTLAND are a group of radio amateurs, electronics enthusiasts, shedders' and parents, introducing electronics and amateur radio across the generations.

We do this through group electronic kit building events and the distribution of electronic kits, tools and equipment.

In recent months we were invited to several Men's Shed's to deliver a kit building event and handover tools/parts/gear. Each intended to spark an ongoing interest in electronics and amateur radio.

In response to requests, kit building events will be held in our new Hamilton base. We will be open to all, Wednesdays 1.00pm – 4.00pm to build your or one of our projects. Snack, coffee/tea provided. Contact us for details.

No. 1: Stonehouse M.S. Event 08/18

No. 4: Kenwood Station for skelmorliesecretbunker.co.uk 01/19

No. 2: Montrose Air Station 08/18

No.7: Peebles M.S. - Electronics Workstation created by Iain GM1MSS for CQS Kits, Tools & Parts

KITS: COMMUNITY GROUPS & RADIO CLUBS

Kits and construction guides are available so your radio club or community group may run an event for young people. Tell us your plans and we'll see how we may help. Kits available are dependent on component donations. Some conditions apply.

**RSGB LOAN TOOL SETS
Amateur Radio Clubs only**

We recently used construction tools and equipment kindly loaned by the RSGB. Their loan tool kit comprises 12 soldering irons, test meters and all the tools that are needed to run a successful kit building event. The loan tools are available to all RSGB Radio Clubs. Further details from **Steve Hartley G0FUW** g0fuw@rsgb.org.uk

**NEEDED: EQUIPMENT
COMPONENTS : BOOKS :
MAGAZINES**

If you, or someone you know, has surplus stuff we could recycle, including into kits, please email us. Books/magazines on ham radio/electronics also welcome. Let's recycle for a better future.

COMING UP IN 2019

- + Fund raising at Braehead Arena June 16
- + Events for Community Groups
- + Assemble & distribute kits for young builders

THANK YOU!

This project is made possible by the generous support of the Radio Society of Great Britain Legacy Fund Committee plus **Nick Henwood G3RWF**
