WOODSIDE HALLS,
CLARENDON STREET,
GLASGOW, N.W.

NEWSLETTER NO. 1 JULY 1961.

This is the first issue of a new Newsletter. We say "new" because there have been Newsletters before and there probably will be Newsletters in the future - but this is our attempt to fill a long felt gap in the continuity of our very successful monthly meetings. Members have been known to attend meetings and then for some unknown reason fade away into obscurity again. Then after a time the feeling might arise to return to the meetings, but hesitation appears in case they might not feel welcome, or might not know the new faces, or might have lost touch with the incidents of previous meetings. It is our earnest hope that this Newsletter will reach their hands and that they will return and help to swell the ever increasing ranks - which now numbers over one hundred or more - who regularly turn up every month at Woodside Halls to enjoy the good company of Glasgow Radio Amateurs. And what good company it is. Amateurs with active call-signs, amateurs with rusty call-signs, amateurs with no call-signs, G.M.'s - G.'s - W.'s - S.W.L.'s - Y.L.'s all meet every month on the second and fourth Friday to hear what's new in Amateur Radio. The meetings have never been so well attended in Glasgow in their history and we thank each and every one of you for your loyal support. We suggest that you bring a friend along one evening and introduce them to us and Amateur Radio, and who knows, you might be instrumental in opening a new hobby and field of interest to them which they never thought of before. This hobby of ours needs an ever flowing influx of new members all the time. The bigger the band of enthusiasts we are the stronger we become, and the strength of any club or society is invariably judged by the size of its memberships. Your committee works for you faithfully - voluntarily - unceasingly - Please support them to your utmost.

RSCB MAG.

By the time you read this, 3JRP should have returned from his sojourn (gaelic for boozing trip) in sunny Italy. We understand he narrowly avoided being flung in the "jile" for the shooting of numerous Italian craws.

3EDZ's 3 element Thunderbird is up and spinning, and a braw sight it is too. Rumour has it that the stork will find it mighty handy for a touch-down before NFD 1962.

Having recently acquired one of the new DRAKE 2A receivers, 3 Jolly Copper's ambition now knows no bounds with a Collins KWM sideband transceiver as the target. Is there gold in them thar pit-bings Jock?

Work on the new rig at 6MS is temporarily suspended due to holidays in sunny (here's hoping) Jersey. 3OCV feels it wont be long before he can dispense with sleep entirely - will this save switching off the rig, Dan?

7MC/S 'phone isn't really an exclusive B.C. allocation - it only sounds that way.

JRP suggests that 2DPW asks Santa for a new RX this Xmas.

MILLPORT (BUTE). Frank Christie GM3FAX will be working 160/P and 80/P 1st fortnight August. This will be of interest to 160 fans as Bute is a rare county to work.

FUTURE MEETINGS.

JULY 14th	-	TVI PART 1 6MD.
JULY 28th	-	TVI PART 2 6MD.
AUGUST 11th	-	SWOP NIGHT PART 1.
AUGUST 25th	-	I WAS ROBBED PART 2.
